

**Youth Philanthropy
New Zealand**

presents

Young people are the only people in the world whose ideas haven't been heard yet, philanthropy is at its best when we encourage young people to use those ideas for the betterment of the community, and give them the knowledge and resources to do it.

Intro

Here at Youth Philanthropy New Zealand (YPNZ). Our number one goal is empowering young people to achieve their own philanthropic dreams. Our programme; Elevate, was created to streamline the harsh environment of starting your own charity/charitable programme. In a nutshell, we supply you with the resources to make your idea into a reality, while you retain autonomy, as to where you want the idea to go.

Resources Provided

With our brand already established, the resources we provide are centred around legitimacy, mentorship, and credibility. If your idea is chosen by Elevate, some of the things you receive will be the following;

Branding and Exposure: When you attach your idea to our brand, we both benefit.

Mentorship: With our leadership's proven track record of building successful philanthropic programmes at a young age, we are uniquely qualified to offer advice on both big picture, and day to day management. When you need something we cannot help with, our network of prominent NZ figures will surely be of use.

Direct line to partners: When you require support, financial or otherwise, we can put you in contact and set up pitches to major donors of different regions and New Zealand as a whole. *Keep in mind, this will only be done if we believe their support will be used effectively.

Autonomy Maintained

We totally understand that you are extremely invested and attached to your idea and do not want to give it up. In fact, that sort of dedication is exactly what we are looking for. YPNZ is a non-profit, and we have absolutely no intention of using your idea solely for our own gain. What we are interested in is **you**, the change-maker, the future entrepreneur. Our goal is to empower you to make your own decisions regarding your idea, and helping you bring it to life. This may include helping to register copyrights for your branding and intellectual property – YPNZ will not be included on any of those documents.

The Future of Your Idea

Importantly, Elevate is a means to an end for your idea. We only have so much to teach and help you with, once we are all confident that your idea has “Elevated” to its potential at YPNZ, there are 2 options.

1. Full autonomy; You can go on to develop your idea with the team you have created – this could be in the form of your own non-profit or other organisation.
2. Incorporation into another organisation; This would be for ideas that perhaps do not cover enough to warrant their own entities. Nevertheless, they would be invaluable in a different organisation. We would help you connect with them, and ensure a fair deal is struck

The team at YPNZ is extremely passionate about what we do, and if you are receiving this proposal, we think you are too. If your idea is chosen to become a part of our Elevate programme, we are 100% positive that our team can help you reach your goals.
